**NEW JERSEY POLLUTANT DISCHARGE ELIMINATION SYSTEM  
DISCHARGE MONITORING REPORT  
HOPE CREEK GENERATING STATION  
NJPDES PERMIT NJ0025411**

Dear Sir:

Attached is the Discharge Monitoring Report for the Hope Creek Generating Station for the month of April 2006.

This report is required by and prepared specifically for the New Jersey Department of Environmental Protection (NJDEP). It presents only the observed results of measurements and analyses required to be performed by the above agencies. The choice of the measurement devices and analytical methods are controlled by the EPA and the NJDEP, not by the company, and there are limitations on the accuracy of such measurement devices and analytical techniques even when used and maintained as required. Accordingly, this report is not intended as an assertion that any instrument has measured, or that any reading or analytical result represents the true value with absolute accuracy, nor is it an endorsement of the suitability of any analytical or measurement procedure.

If you have any questions concerning this report, please feel free to contact Tiffany Baban at (856) 339-2628.

Sincerely,

A handwritten signature in cursive script that reads "George P. Barnes".

George P. Barnes  
Site Vice President – Hope Creek

Handwritten initials "JEAS" in a stylized, cursive font.

## EXPLANATION OF CONDITIONS

April 2006

The following explanations are included to clarify possible deviation from permit conditions.

General - The columns labeled "No. Ex" on the enclosed DMR tabulate the number of daily discharge values outside the indicated limits.

Data reporting and accuracy reflect the working environment, the design capabilities and reliability of the monitoring instruments and operating equipment.

Deviations from required sampling, analysis monitoring and reporting methods and periodicities are noted on the respective transmittal sheet.

Results reported on the Discharge Monitoring Report forms are consistent with permit limits, data supplied from contract laboratories, the December 1993 revision of the NJDEP DMR Instruction Manual and specific guidance from DEP personnel.

Service water discharge was redirected from DSN-461A to DSN-463A. This bypass occurred between the dates of 4-16-06 and 4-21-06. Previous notification had been submitted to NJDEP IAW Part IV section G.5 of our NJPDES permit. Reference PSEG letter LR-E06-0098 dated 3-1-06.

Demineralized water utilized within the safety auxiliaries cooling system was discharged through DSN 463A, the South Yard Drain during this reporting period. The NJPDES Permit application and the Fact Sheet identify that groundwater, including fresh water and potable water, may be discharged through DSN 463A. At Hope Creek, demineralized water is groundwater that has undergone ion exchange and filtration to remove most of the natural impurities from groundwater, and is of better quality than fresh and potable water, and thus included in the Hope Creek NJPDES Permit.

EXPLANATION OF EXCEEDANCES

April 2006

The following exceedances are included in the attached report and explained below.

DSN No.

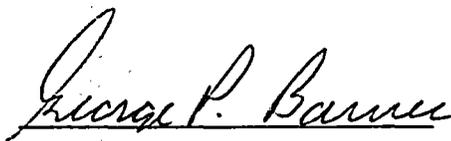

EXPLANATION

**No Exceedances**

COUNTY OF SALEM  
STATE OF NEW JERSEY

I, George P. Barnes, of full age, being duly sworn according to law, upon my oath depose and say:

1. I am the Site Vice President-Hope Creek for PSEG Nuclear, and as such am authorized to sign Hope Creek's Discharge Monitoring Reports submitted to the New Jersey Department of Environmental Protection pursuant to the Station's New Jersey Pollutant Discharge Elimination System permit.
2. I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.
3. The signature on the attached Discharge Monitoring Reports is my signature and I am submitting this affidavit in satisfaction of the requirement that my signature be notarized.

George P. Barnes  
Site Vice President – Hope Creek

Sworn and subscribed before me  
this 23<sup>rd</sup> day of May 2006.

DELORIS D. HADDEN  
Notary Public of New Jersey

**WHO MUST SIGN** The highest ranking official having day-to-day managerial and operational responsibilities for the discharging facility shall sign the certification or, in his absence a person designated by that person. For a local agency, the highest ranking operator of the treatment works shall sign the certification. Where the highest ranking operator does not have the ability to authorize capital expenditures and hire personnel, a person having that responsibility or person designated by that person shall also sign the second certification at the bottom of this page. If the local agency has contracted with another entity to operate the treatment works, the highest-ranking official of the contracted entity shall sign the certification.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments, and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and/or imprisonment, pursuant to N.J.A.C. 7:14A-6.9(B). The New Jersey Water Pollution Control Act provides for penalties up to \$50,000 per violation.
