Ft. Leonard Wood, MO 65473

Dear 1LT Mattern:

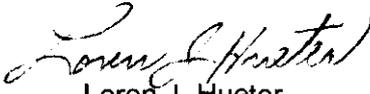

Enclosed is Amendment No. 42 to your NRC Material License No. 24-15095-01, in accordance with your requests, supplemented by the information and mutual agreements arrived at in our telephone conversations on April 19, 2006, May 19, 2006 and May 22, 2006. This amendment deletes from the license one of the authorized users as requested. As noted in the telephone conversations, *the amendment request did not provide documentation of any training or experience for any of the three individuals to be added to the license, to demonstrate that they meet the applicable qualifications as defined in 10 CFR Part 35 for the authorizations requested.* I also requested that their respective training and experience be documented on NRC Forms 313, following the guidance in Appendix E of NUREG - 1556, Vol. 9, Rev. 1, and submitted for our review/evaluation. During the referenced conversation on May 19, 2006, you related that it will take an undetermined amount of time to gather and submit the needed information for the three individuals. Therefore, we agreed that this amendment be limited to deletion from the license of the one individual and that the licensee will submit the information regarding the training/qualifications of the other three individual at a later date, under a new amendment request. This amendment also includes your updated mailing address for the subject license as per our telephone conversation on May 22, 2006. Please note that the changes made to your license are printed in **bold font**.

Please note that we are no longer located at 801 Warrenville Road, Lisle, IL. **Our current address is 2443 Warrenville Road, STE 210, Lisle, IL 60532-4352**, as shown above on this letter head. Please address all future correspondence with us, to this address.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

  
Loren J. Hueter  
Materials Licensing Branch
