RE: Control # 470941

Earlier today you and I had discussed my call from Michael Brown, Idaho Board of Pharmacy inspector for eastern Idaho. He indicated that he needed to see the NRC inspection report for our new location of use in Idaho Falls. You indicated that the NRC would probably not physically inspect prior to license issuance if PSI, Inc. committed to not begin nuclear operations once and until the Idaho Board of Pharmacy has granted a license to the pharmacy. By this letter, we are indicating that we will not begin nuclear operations once and until an Idaho Board of Pharmacy pharmacy license has been granted.

Sincerely,
