Mr. Tom Blackley
Oklahoma Water Resources Board
NE 10 and Stonewall
Oklahoma City, OK 74352

Dear Mr. Blackley:

As per our conversation, enclosed please find the following environmental monitoring information for the Kerr-McGee Nuclear Corporation Sequoyah Facility: Item 1, NRC Source Material License SUB-1010 containing environmental monitoring conditions (requirements); Item 2, conditions from 1977 license renewal application referenced in condition 12 license SUB-1010; Item 3, present environmental monitoring conditions from 1982 license renewal application; Item 4, Benthic Macroinvertebrate monitoring report referenced in condition 15 license SUB-1010; Item 5, map containing location of monitoring wells and plant layout; Item 6, Amendment #17 which contains information relative to environmental monitoring associated with the raffinate fertilizer application program.

If we can be of further assistance, please contact us.

Sincerely,

MARC J. RHODES
