Dear NRC Chairman;

Please advise me as to the NRC policy concerning citizenship of physicians and others receiving NRC licenses that authorize the purchase of radioactive materials. For example, a medical user under 35.920 may purchase unlimited quantities of radionuclides purportedly for medical use with patients or QC/QA of machines. Is there any restriction of this Federal License to citizens or a class of visa's, green cards or related documents?

Sincerely,

Charles H. Rose
