RE: Solvent Extraction Contamination
Amended 10 CFR 20.405 Report

Dear Mr. Martin:

On October 9, 1990, Sequoyah Fuels Corporation (SFC) submitted a 30-day written report on the solvent extraction contamination situation (90157-N). Recently, in the process of reviewing the training of personnel involved in the solvent extraction excavation project, SFC personnel discovered the fact that one contract employee was inadvertently omitted from the October 9 report. The issue that the report was potentially incomplete was raised by me in a telephone conversation with Bill Fisher on November 2, 1990. SFC herein submits a revised 10 CFR 20.405 report that includes this individual's exposure.

SFC apologizes for any inconvenience caused by the omission of this individual from the October 9 report. Should you have any questions on this matter, please contact me at 918/489-3207.

Best Regards,

Lee R. Lacey
Vice-President
