Subject: The NRC environmental assessment of Lea County is flawed. Part of the year we have high winds and sa

The NRC environmental assessment of Lea County is flawed. Part of the year we have high winds and sand storms. This has been ignored by the NRC and EPA and the State of New Mexico. .in order to expedite the licensing of the les plant.
This is irresponsible and places the health of the public at risk.
Im sending ins companies some information on this. What they do with it is their business.

Phillip Barr
Lea County
