Request to be Added to Oconee Distribution Lists

June 7, 2006

Dear Sirs:

The purpose of this letter is to request to be added to the distribution lists for NRC correspondence related to Oconee Units 1, 2 & 3 (Dockets 50-269, 50-270 & 50-287).

The reason for the request is to monitor the meeting notices and summaries, the documentation of telephone discussions and other correspondence, such as audit and inspection reports, that is related to the Oconee units, particularly with respect to the licensing activities associated with the application to convert the reactor protection system and engineered safety features systems from analog to digital instrumentation and control systems. These activities are claimed by Duke Power Company to be pioneering efforts and thus the precedents set by Oconee may affect similar activities that are planned by Westinghouse for its customers.

The address for these mailings is:

Mr. Charles Brinkman
Director, Washington Operations
Westinghouse Electric Company
12300 Twinbrook Parkway, Suite 330
Rockville, MD 20852

If the NRC prefers to email these notices and correspondence, my email address is:

brinkmcb@westinghouse.com

Thank you for your consideration of this administrative request.

Sincerely yours,

Charles Brinkman
Director, Washington Operations
