**Re: Oyster Creek Nuclear Generating Station Relicensing
Lacey Township, New Jersey**

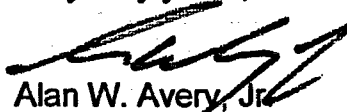

Dear Mr. Howe:

At a recent regular meeting of the Board of Chosen Freeholders a question was raised with regard to the petition filed by the New Jersey Department of Environmental Protection (NJDEP) to require your Agency to hold additional public hearings on three specific issues related to Oyster Creek and its continued operation. These are the vulnerability of the plant to terrorist attack; the potential for safety components to wear out due to metal fatigue; and the adequacy of the backup power plan for the facility.

It is my understanding that your Agency has rejected the request by the NJDEP who has appealed and is currently awaiting a decision. The Board of Chosen Freeholders has adopted resolutions setting forth its concerns with regard to plant relicensing, copies of which are attached to this letter. The resolutions raise the same issues that are contained in the NJDEP's petition and the Board would urge you to approve the NJDEP's request and hold the additional public hearings.

Should you have any questions with regard to this matter, please do not hesitate to contact me.

Very truly yours,

Alan W. Avery, Jr.
County Administrator

RESOLUTION

March 1, 2006

WHEREAS, by way of a Resolution adopted on February 18, 2004, the Ocean County Board of Chosen Freeholders called upon the Nuclear Regulatory Commission (NRC) not to approve the License Renewal Request for the Oyster Creek Nuclear Generating Station unless the facility can meet all current NRC operational and safety standards; and

WHEREAS, the Ocean County Board of Chosen Freeholders further called upon the NRC, in its deliberations, to specifically address the continued storage of *spent radioactive fuel on-site*; the ability to safely evacuate residents in response to a nuclear accident; and issues related to the plant's structural integrity, including verification that the plant was constructed as designed, and further verification of the quality of workmanship and material used in the plant's construction; and

WHEREAS, on December 9, 2005, this matter was referred by the NRC to an Atomic Safety and Licensing Board Panel, consisting of three Administrative Law Judges for further review and action; and

WHEREAS, on February 27, 2006 the Atomic Safety Licensing Board ruled that an adjudicatory hearing will be held to address specific safety issues raised by various parties concerning the structural integrity of the Oyster Creek reactor vessel drywell liner; and

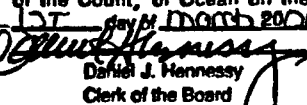

WHEREAS, the Ocean County Board of Chosen Freeholders supports the determination of the Atomic Safety and Licensing Board to hold further hearings in this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF CHOSEN FREEHOLDERS OF THE COUNTY OF OCEAN, STATE OF NEW JERSEY, as follows:

1. The Ocean County Board of Chosen Freeholders hereby reaffirms its request that the NRC fully and thoroughly address all the issues set forth above and further set forth in the

previous Resolution of the Board, adopted on February 18, 2004, in the ongoing Oyster Creek license renewal proceeding.

2. The Board of Chosen Freeholders further re-affirms its position that the Nuclear Regulatory Commission should not approve a renewal license for the Oyster Creek Nuclear Generating Station unless the facility can meet all current NRC operational and safety standards.
3. A certified copies of this Resolution shall be forwarded to Ocean County's Congressional Representatives, Ocean County's State Legislators, Ocean County Municipal Clerks, the Nuclear Regulatory Commission, the NRC Atomic Safety and Licensing Board, Governor John S. Corzine, and the Oyster Creek Nuclear Generating Station.

I certify the foregoing to be a
true copy of a Resolution adopted
by the Board of Chosen Freeholders
of the County of Ocean on the
13th day of March 2010

Daniel J. Hennessy
Clerk of the Board

RESOLUTION
February 18, 2004

WHEREAS, the Board of Chosen Freeholders recognizes the need for safe and reliable electrical generation and transmission capacity to meet the growing needs of residents and businesses in Ocean County as documented in a report to the Board of Chosen Freeholders prepared by the Ocean County Planning Department; and

WHEREAS, an adequate supply of electrical energy is crucial for the economic and physical welfare of the citizens of Ocean County; and

WHEREAS, AmerGen is currently considering whether or not to submit a Licensing Renewal Request to the NRC, to extend plant operations beyond 2009; and

WHEREAS, the Nuclear Regulatory Commission (NRC) is the federal agency designated to oversee the operation and security of the nuclear plant; and

WHEREAS, the ability of the Oyster Creek Generating Station to operate safely beyond the current licensing period is of primary concern to the Ocean County Board of Chosen Freeholders; and

WHEREAS, the Oyster Creek Generating Station is the oldest operating nuclear plant in the Country and will approach its anticipated design life of forty years at the end of the current licensing period in 2009; and

WHEREAS, concerns have been expressed regarding the integrity of the Plant's initial construction, the continued storage of spent radioactive fuel on-site, and the ability to safely evacuate residents following a nuclear incident; and

WHEREAS, the License Renewal Process will take at least thirty months and will include the preparation of a full Environmental Impact Statement and multiple opportunities for public meetings and comments prior to a determination by the NRC.

NOW, THEREFORE, BE IT RESOLVED, by the Board of Chosen Freeholders of the County of Ocean, State of New Jersey as follows:

1. That the Nuclear Regulatory Commission should not approve a License Renewal Request for the Oyster Creek Generating Station unless it meets all current criteria for operational and safety standards.
2. That in its deliberations, the NRC specifically address the continued storage of spent radioactive fuel on-site, the ability to safely evacuate residents in response to a nuclear accident, and issues related to the Plant's structural integrity, including verification that the Plant was constructed as designed, and questions related to the quality of workmanship and materials used in the Plant's construction.
3. Prior to reaching a decision, the Nuclear Regulatory Commission produce a written report documenting its findings which can be submitted for independent review along with all scientific documents and testimony submitted from other parties with respect to this matter.
4. Urges the US Government, State of New Jersey and participants on the PJM Grid to continue to research and develop renewable energy sources which can be phased into the nation's and region's electrical generating capacity in the future.

5. Request that the State of New Jersey establish a permanent trust fund for the Township of Lacey to guarantee the availability of revenue replacement funds upon the ultimate decommissioning of the plant.
6. Certified copies of this Resolution shall be forwarded to Ocean County's Congressional Representatives, Ocean County's State Legislators, Ocean County Municipal Clerks, the Nuclear Regulatory Commission, Governor James E. McGreevey, and the Oyster Creek Generating Station.

I certify the foregoing to be a
true copy of a Resolution *Adopted*
by the Board of Chosen Freeholders

of the County of Ocean on the
18th day of *Feb.* 2004
