SUBJECT: CONFIRMATION OF REQUESTED INITIAL OPERATOR LICENSE
EXAMINATIONS: NRC REGION III EXELON STATIONS

Dear Mr. Crane:

In a letter dated September 30, 2005 (RS-05-122), your staff responded to Regulatory Issue Summary 2005-19 and requested we schedule initial license operator examinations for the Exelon Nuclear Plants. This letter confirms the requested examinations at the Region III power plants. Some dates are different than those requested in your letter. The individual station training departments have been notified by telephone of the schedule differences. We have tentatively scheduled the requested examinations to occur as follows:

Station	2006	2007	2008	2009
Braidwood	5/15/2006	12/3 & 12/10/2007	3/3 & 3/10/2008	N/R

N/R - None Requested

On-site validation of the examinations is tentatively scheduled to occur approximately three weeks before each scheduled examination. In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you and the affected station's training department immediately upon discovery of such conditions and make arrangements to administer the examination at a mutually acceptable date.

We understand that your staff will develop the proposed examinations with the exception of the November 2006 LaSalle Station examination, which will be developed by Region III examiners. Examinations scheduled for two weeks indicate a class size of ten or more candidates. Please inform us if the number of candidates declines below ten as this will impact the examination schedule. Please inform us at your earliest opportunity if you discover a need to change any of the dates of the scheduled examinations.

A supplementary letter will be sent to the station's training department approximately 120 days prior to the initial examination. The letter will provide the station with the chief examiner's name, an outline of examination security expectations, a list of the materials required by the NRC to conduct the examination, and it will reconfirm the examination dates and the number of candidates you have in the training program. If you have any questions concerning this information, please contact Mr. Dell McNeil of my staff at 630-829-9737.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS).
