Name of Licensee: Union Carbide Corporation Name of Participant(s): Michael Boyd, RSO Telephone No. 304-747-7974 Subject: RAI, C-14 Information <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>	
Summary: The letter dated May 9, 2006 establishes that Building 741 has been removed and there is no contaminated soil where the building had been. Other potential location was Building 747 where surveys submitted in your letter dated October 28, 2005 shows there is no residual activity. However, you have not addressed if there was C-14 use in Building 770 where tracers studies were performed. Please submit surveys demonstrating that there is no residual C-14 contamination above release criteria or state that there was no use of unsealed C-14 materials in Building 770. Mr. Boyd also confirmed that they had searched for survey records associated with Building 741 but could not find specific survey results.	
Action Required: Will provide survey for C-14 in Building 770 or state that C-14 hadn't been used in this building.
