Conclusions/Findings:

The BVPS Site Protection Section is in compliance with the Group Working Hour limits as specified in EA 03-038.

Contrary to EA-03-038, Fitness For Duty Enhancement for Nuclear Security Force Personnel, 36 occurrences were identified in which individual work hour limits were exceeded. This indicates a non-compliance relative to the individual work hour limits specified in the Order. CR # 05-01556 was initiated to document these occurrences.
