

June 23, 2006

Mr. B. F. Maurer, Acting Manager  
Regulatory Compliance and Plant Licensing  
Westinghouse Electric Company LLC  
P.O. Box 355  
Pittsburgh, PA 15230-0355

SUBJECT: NUCLEAR MANAGEMENT COMPANY, LLC - REQUEST FOR WITHHOLDING  
OF PROPRIETARY INFORMATION FROM PUBLIC DISCLOSURE FOR POINT  
BEACH NUCLEAR PLANT, UNITS 1 AND 2 (TAC NOS. MD2359 AND MD2360)

Dear Mr. Maurer:

By letter to the U.S. Nuclear Regulatory Commission (NRC) dated June 6, 2006, Nuclear Management Company, LLC (NMC), submitted an affidavit (CAW-06-2141) dated May 12, 2006, executed by you requesting that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

WEP-06-33 P-Attachment, "Transmittal of Figure 5-1 Reactor Coolant  
Temperature and Pressure vs. Time Level D Transients"

The document is included in Enclosure 3, "Low Upper-Shelf Toughness Fracture Mechanics Analysis of Reactor Vessel of Point Beach Units 1 and 2 for Extended Life Through 53 Effective Full Power Years, BAW-2467P, Rev.1, October 2004," to NMC's letter to the NRC dated June 6, 2006.

A nonproprietary copy (BAW-2467NP, Rev.1) of Enclosure 3 has been placed in the NRC's Public Document Room and added to the Agencywide Documents Access and Management System Public Electronic Reading Room.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- a) The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
- b) It consists of supporting data, including test data, relative to a process (or component, structure, tool, method, etc.), the application of which data secures a competitive economic advantage, e.g., by optimization or improved marketability.
- c) Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.

- d) It reveals cost or price information, production capacities, budget levels, or commercial strategies of Westinghouse, its customers or suppliers.
- e) It reveals aspects of past, present, or future Westinghouse or customer funded development plans and programs of potential commercial value to Westinghouse.
- f) It contains patentable ideas, for which patent protection may be desirable.

We have reviewed your material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of the Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, please contact me at 301-415-2296.

Sincerely,

*/RA/*

Carl F. Lyon, Project Manager  
Plant Licensing Branch III-1  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation
