Ms. Donna Janda
United States Nuclear Regulatory Commission
Region I
475 Allendale Road
King of Prussia, PA 19406-1415

License No. 37-31144-01
Mail Control No. 138611
Docket No. 03037182

June 12, 2006

Dear Ms. Janda:

Listed below is the response for additional information you requested for the NRC license application for the Lewisburg Cancer Center.

1. A complete copy of the radioactive material license from the University of Southern California, which shows the use of Ir-192 in HDR units was faxed to you last week. Dr. Militzer indicates that she performed HDR procedures under this license.
2. Attached please find copies of vendor training on the HDR unit conducted by Jim Wilson of Alpha Omega.
3. Shih-min Lo, PhD. will serve as the radiation safety officer for the license.

If you have any questions or need any addition information, please feel free to contact Carmine A. Pierno at (610) 554-9630.

Sincerely,

138611
NMSS/RGNI MATERIALS-002

Revision A

Alpha-Omega Services, Inc.

Where Quality Means Exceeding Expectations

Annual Safety Training for the Nucletron HDR

Location: Montgomery Hosp. City: Norcross State: GA

I. Teaching Aids Used

- a. User Manual
- b. Service Manual
- c. Applicator and Accessories
- d. Source container and Dummy Source

II. Topics Covered

- a. What is Remote Afterloading
- b. Time, Distance, Shielding

|||
|||

III. Error codes

- a. What are they and where are they occurring
- b. Where do you locate error codes and correct
- c. Procedure for retracting source
 - i. No UPS
 - ii. Battery for Emg retract only
 - iii. Try and use all Interrupt buttons
 - iv. "Go for the Gold"
 - v. DO NOT CUT, Closed system
