Subject: Additional information for amendment request

(NOTE: This will be used as the  
Documents Title in ADAMS)

Summary: Licensee requested to delete their only 31.11 authorized user (AU). I left a message for Margaret, asking licensee to either name another 31.11 (AU) or remove 31.11 from their license. Margaret called back and said licensee never used 31.11 and would like it removed from the license.

Licensee also requested to add Zheng Jin as Authorized Medical Physicist (AMP). I searched ADAMS and found that she was previously listed as HDR AMP for NRC license 37-16170-01 in 1994-1995 (>7 years ago). In ML060340465, I also found her listed as AMP on NYC license 75-3009-01, amendment 11, issued to St. Vincent's on March 13, 2003. NYC licenses name "therapy physicists" for tasks that include 35.400 implants, but do not indicate if authorized for HDR specifically. I called their RSO, Dr. Mustafa, and left a message asking him to confirm that Zheng Jin did work under this license as AMP for HDR.

On 6/14/06, Dr. Mustafa informed me by e-mail that Zheng Jin was authorized for HDR under St. Vincent's broad license, and performed HDR cases for a minimum of 2 years.

Action Required: Issue amendment, removing 31.11 and adding Ms. Jin as AMP.
