Communication Channel for PWR Owners Group Topical Report Information and Requests

Reference: 1. Letter Dale Young, B&WOG Executive Committee to Distribution, "B&W Units to Join the Westinghouse Owners Group " OG:05:1874, October 27, 2005.

As announced in the referenced letter, the former group known as the B&W Owners Group (B&WOG) no longer exists. The group was dissolved by its utility members as of December 31, 2005. Each plant who was a member of the B&WOG has since become a member of the Westinghouse Owners Group, which in turn has changed its name to the PWR Owners Group (PWROG) to better reflect its total membership.

As a result of this transition, the project management interface between the PWROG and the NRC is now being handled by Mr. Tom Laubham, of the Program Management Office. Mr. Laubham's position will be the single point contact for all correspondence on all Topical Report submittals for the former B&WOG, CEOG and WOG, regardless of which group originated the submittal. For all licensing matters related to the PWROG, please address all correspondence; verbal, email, or writing to Mr. Laubham, who will distribute the information to the appropriate personnel involved with the project. All PWROG meetings with NRC relative to Topical Reports and technical issues will also be arranged through Tom Laubham.

To assist in identifying the Topical Reports now under review that were originally submitted by the B&WOG, a table listing these reports and their present status is attached. NRC review fee invoices for all Owners Group topical reports should also be sent to Mr. Laubham for distribution. Please note that invoices and correspondence for Topical Reports submitted directly by AREVA NP (not PWROG Topical Reports) should continue to be sent to AREVA NP to the attention of Mr. Ronnie L. Gardner as is currently being handled.
