Subject: Revision 1 to Braidwood Communicatoins Plan

Greetings,

Based on new information obtained this week, we have prepared a draft Revision 1 to the Braidwood Communications Plan for comment (attached). Please provide comments to Wayne Slawinski (WJS2) by Noon on Monday, December 12, 2005.

Recent Preliminary Results -

NRC results of split sample analyses have been reasonably consistent with the licensee's results:

	Licensee	NRC
Residential well	1151 (\pm 200)	2046 (\pm 300)
	1524 (+ 200)	1230 (+ 300)

The remaining split samples of other residential wells and offsite monitoring wells near the blowdown line were found to be indistinguishable from background by the licensee and the NRC's laboratory.

Thank you,

Steve
