Current Braidwood Tritium Activities:

Region III and headquarters staffs (OGC, NRR, OEDO, STP) evaluated regulatory jurisdictional issues at an internal NRC meeting on January 18, 2006. NRC authority for this case was established by the Atomic Energy Act.

Ex 5

The inspection staff is continuing to monitor licensee characterization and follow-up efforts. The licensee expects to issue a final report by mid-February with Radiation Specialists from the Region completing the Event Followup Inspection during the week of February 20.

The licensee has scheduled meetings with the State regulators on January 23, 2006, and with nearby residents on January 26, 2006, which Region III plans to attend.
