Current Braidwood Tritium Activities:

Region III and Headquarters staffs (OGC, NRR, OEDO, STP) evaluated regulatory jurisdictional issues at an internal NRC meeting on January 18, 2006.

EYS

The inspection staff is continuing to monitor licensee characterization and follow-up efforts. The licensee expects to issue a final report by mid-February, and Region III plans to complete our review in late February 2006.

The licensee has scheduled meetings with the State regulators on January 23, 2006, and with nearby residents on January 26, 2006, which Region III plans to attend.
