SAFETY EVALUATION REPORT

Docket No. 71-9200
Model No. 125-B Package
Certificate of Compliance No. 9200
Revision No. 12

SUMMARY

By application dated February 16, 2006, the U.S. Department of Energy (DOE) requested renewal of Certificate of Compliance (CoC) No. 9200 for the Model No. 125-B package. DOE did not request any changes to the package design or authorized contents. The certificate has been renewed for a five-year term.

EVALUATION

By application dated February 16, 2006, DOE requested renewal of Certificate of Compliance No. 9200. The staff reviewed the documents referenced in the certificate and determined that the documentation was available and complete. The staff also reviewed the operating and maintenance procedures for any impacts due to the proposed changes and determined that there are no affects from the proposed modifications. The Certificate of Compliance No. 9200 has been renewed for a five-year term.

The following changes have been made to the Certificate of Compliance:

- Condition No. 6(c) was revised to add the term Criticality Safety Index due to the new Part 71 ruling effective October 1, 2004 (69 FR 3698).
- Condition No. 13 was revised to reflect the new numbering of Part 71.
- Condition No. 14 was added authorizing the use of the previous revision of the certificate for a period of approximately one year.
- Condition No. 15 was updated for the new expiration date of June 30, 2011.

CONCLUSION

The certificate has been renewed for a five-year term that expires on June 30, 2011. This change does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

Issued with Certificate of Compliance No. 9200, Revision No. 12
on June 20, 2006.
