Eric

Thanks

I'll forward it on to Steve K. The Watts Bar one sounds familiar. I think Steve K mentioned it to me.

Stu

Perfect timing. I just finished the search and found three potential candidates:

- 1) The current Braidwood issue
(<http://nrr10.nrc.gov/forum/forumtopic.cfm?selectedForum=03&forumId=HP&topicId=596>)
- 2) The recent Indian Point issue
(<http://nrr10.nrc.gov/forum/forumtopic.cfm?selectedForum=03&forumId=HP&topicId=445>)
- 3) Event Notification 41400 from Watts Bar on February 10, 2005
(<http://www.nrc.gov/reading-rm/doc-collections/event-status/event/2005/20050211en.html#en41400>)

For candidates 1 and 2, the regions and HP branch probably have reams of information on regulatory response. I don't remember candidate 3, so Region II may need to be asked if any action was taken.

Thanx,
Eric

Eric

Yes, the HP branch has the lead. Operating Experience Branch only needs to do a data base search, as we discussed earlier.

Thanks
Stu.

Stu,

I believe that Health Physics Branch has the lead on this green ticket, but since Tilda put the Operating Experience Branch management team on distribution, I wanted to confirm my belief. If the Operating Experience Branch has the lead or a support role, please let me know via the Daytime EO cell phone

Regarding the Lochbaum green ticket, it's been revised and was provided to Bruce earlier this afternoon.

Thanx,
Eric
