Dear Mr. Lawyer, 03086652

This correspondence is in response to your phone discussion on June 14, 2006 with Michael Boyd for the subject license renewal.

We have confirmed with Mike Green, former RSO, there was no additional work performed involving C-14 in that building after the wipe tests/survey were performed. Those results were submitted to the NRC on May 3, 2000.

If you need additional information or clarification, please contact Mr. Michael Boyd, the Radiation Safety Officer, at 304-747-7974.

Thanks again for giving us the opportunity to clarify our amendment request.

Sincerely,

J. L. Blatt
