Dresden Nuclear Power Station, Unit 1
Facility Operating License No. DPR-2
NRC Docket No. 50-10

Subject: Defueled Safety Analysis Report Update

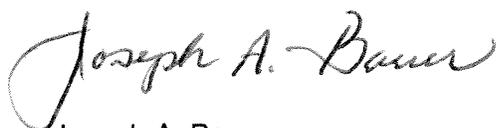

Reference: Letter from K. A. Ainger (Exelon Generation Company, LLC) to U.S. NRC,
"Submittal of the Defueled Safety Analysis Report Update," dated
June 22, 2004

In the referenced letter, Exelon Generation Company, LLC (EGC) submitted Revision 3 of the Defueled Safety Analysis Report (DSAR) for Dresden Nuclear Power Station (DNPS), Unit 1, as required by 10 CFR 50.71, "Maintenance of records, making of reports," paragraph (e). The purpose of this submittal is to notify the NRC that no changes have been made to the DSAR since the previous submittal of Revision 3. In accordance with 10 CFR 50.71(e)(4), this notification is being submitted within 24 months of the DSAR revision that was submitted by the referenced letter. Accordingly, this notification is due to be submitted no later than June 22, 2006.

As Manager, Licensing, I certify that the information in this submittal accurately presents changes made since the previous submittal that are necessary to reflect information and analyses submitted to the NRC or prepared pursuant to NRC requirements, and changes made under the provisions of 10 CFR 50.59 but not previously submitted to the NRC.

If you have any questions about this letter, please contact Mr. John L. Schrage at (630) 657-2821.

Respectfully,

Joseph A. Bauer
Manager, Licensing
