Conversation with Michelle Krenebrook, Chief Tech
Phone call on June 5, 2006

The reviewer spoke to MK to advise her of the following: the information provided to add Dr. DesRosiers was not adequate for all of 35.300. It appears that he is authorized at the University of Indiana for 35.400 and 600 and P-32 use. No other authorization could be found. Also the preceptor for the new RSO was not completed. Item 11.c. needs to be checked. Finally, the reviewer informed MK that they sent with the amendment request the original amendment No. 05 to their license. MK was informed that amendment No. 05 would be sent back with amendment 06. MK will look into the other 2 issues.

James Mullauer, 6/5/06
