**NRC Site Visit to Discuss Facility-Specific Performance Indicators**

Dear Ms. Galloway:

In the referenced letter, the U.S. Nuclear Regulatory Commission (NRC) requested USEC's availability to accommodate NRC staff visits to USEC's facilities for the purpose of determining the feasibility of developing facility-specific performance indicators for use in NRC's oversight process. USEC proposes that one meeting be held for all USEC facilities at the Piketon, OH, site on September 28, 2006.

If you have any questions concerning this matter, please contact me at (301) 564-3250. Please confirm your acceptance of this date to me.

Sincerely,

Steven A. Toelle  
Director, Regulatory Affairs
