SUBJECT

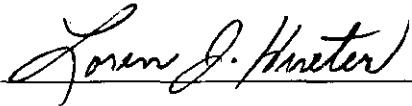

Control No. 315324: Re request to delete from License No. 21-24380-01, two former use facilities located at 35300 Nankin, Suite 602, Westland, Michigan and 26139 Gibraltar Road, Flat Rock, Michigan and release them for unrestricted use. Also, regarding the leak test records submitted with letter dated 6-13-2006

SUMMARY

In our telephone conversation, I noted that the leak test records submitted with the 6-13-2006 letter for the sealed sources transferred from the licensee's Flat Rock facility were dated February 25, 2004, which was more than six months before the closeout survey conducted on October 12, 2004 for the Flat Rock facility. Mr. Carlson agreed to provide a copy of a leak test record for the sources that was taken within six months of the closeout survey, or perform a new leak test of the sources (currently in storage) and submit the results to me.
