

U. S. NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC)

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Revision
2. The title of the information collection: 10 CFR Part 40, Domestic Licensing of Source Material; and NRC Form 484, Detection Monitoring Data Report.
3. The form number if applicable: NRC Form 484

4. How often the collection is required: On occasion. Reports required under 10 CFR Part 40 are collected and evaluated on a continuing basis as events occur. There is a one-time submittal of information to receive a license. Renewal applications need to be submitted every 5 to 10 years. Information in previous applications may be referenced without being resubmitted. In addition, recordkeeping must be performed on an on-going basis. NRC Form 484 is submitted biannually to report ground-water data necessary to implement EPA ground-water standards.
  
5. Who will be required or asked to report:  
  
10 CFR Part 40: Applicants for and holders of NRC licenses authorizing the receipt, possession, use, or transfer of radioactive source and byproduct material.  
  
NRC Form 484: Uranium recovery facility licensees reporting ground-water monitoring data pursuant to 10 CFR 40.64.
  
6. An estimate of the number of annual responses: 894 (273 NRC Licensees [68 NRC responses + 205 NRC Recordkeepers] + 621 Agreement State Licensees [349 Agreement State responses + 272 Agreement State recordkeepers])
  
7. The estimated number of annual respondents: 340 licensees (68 for NRC licensees and 272 for Agreement State licensees).

8. An estimate of the total number of hours needed annually to complete the requirement or request: 65,418 total hours [20,769 for NRC Licensees (16,067 hours for reporting and 4,702 hours for recordkeeping) and 44,649 for Agreement State Licensees (26,923 hours for reporting and 17,726 hours for recordkeeping)].
9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Not applicable.
10. Abstract: 10 CFR Part 40 establishes requirements for licenses for the receipt, possession, use and transfer of radioactive source and byproduct material. NRC Form 484 is used to report certain groundwater monitoring data required by 10 CFR Part 40 for uranium recovery licensees. The application, reporting and recordkeeping requirements are necessary to permit the NRC to make a determination on whether the possession, use, and transfer of source and byproduct material is in conformance with the Commission's regulations for protection of public health and safety.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site:

<http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by (insert date 30 days after publication in the Federal Register). Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.
