New License Application Dated March 15, 2006

Phone conversation with Laura Smith, Proposed RSO

The reviewer discussed with the P-RSO the fact that she is RSO at at least 2 other facilities and is also a consultant.

The reviewer asked that she address the time she will have available for this new license as well as her response time in case of an emergency. The P-RSO will fax this information to the reviewer. There were no other apparent deficiencies with this application.
