 Ramesh Avva, M.D. 10 CFR 35.100 and 35.200 (excluding xenon-133).

13. Licensed material (excluding general use isotopes) may be delivered to vials that are located at temporary job sites and occupied by Nuclear Diagnostic Technicians in accordance with letters dated February 10, 1994, May 18, 1994, October 13, 1994 and July 25, 1995, and the application dated July 30, 2003.
14. The licensee is authorized to transport licensed material only in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."
15. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.

Amendment No. 56

16. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

- A. Application dated July 30, 2003; and
- B. Letters dated February 10, 1994 (with enclosures), May 18, 1994, October 13, 1994, July 25, 2003, February 18, 2004, and August 31, 2005.
