Subject: discontinuation of fuel facility performance indicators program

This e-mail is to inform you that last Friday (June 16), the Commission disapproved continuation of the NRC staff's efforts to develop facility-specific performance indicators (PIs) for fuel facilities.

As such, the NRC staff is closing its efforts in this regard and will not be conducting any more of its requested site/office visits or conference calls concerning facility-specific PIs. The NRC staff sincerely appreciates your cooperation and time and effort in responding to our requests concerning fuel facility PIs.

regards,
Nick Baker
