Subject: Oyster Creek - Teledyne Report

Mr. Gunter-

In response to our telephone conversation yesterday in which you asked about the accession number for the Subject report that was discussed at the June 1 public meeting.

As we discussed, due to the age of the report, it is not in the active ADAMS database.

It is my understanding that the Legacy Library contains the following accession number for the document ... 9106240280.

This number should assist you in locating the micro-fiche file in the public document room.

Please let me know if you need additional.

=====  
regards,

Donnie Ashley
