June 26, 2006

Shaw Environmental & Infrastructure, Inc.  
ATTN: Steven H. Brown  
Radiation Safety Officer  
9201 East Dry Creek Road  
Centennial, CO 80112

**SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE**

By letter received in the U.S. Nuclear Regulatory Commission (NRC) Region I office on April 12, 2006, you requested an amendment to your NRC License No. 10-25362-01 to change the point of contact and address of your license. Due to your change of address, the responsibility for your license was moved from NRC Region I to NRC Region IV jurisdiction. Therefore, your NRC license no. 10-25362-01 is terminated. You were authorized a new NRC license no. 05-29228-01, effective June 19, 2006.

The NRC staff has reviewed your historical file and determined that you were only authorized for temporary job sites. Therefore, there was no radioactive material located in facilities within NRC jurisdiction. No further actions with respect to NRC regulated materials for this license is required and NRC license number 10-25362-01, with a mailing address of Alpharetta, Georgia 30022, is hereby terminated.

If you have questions or require clarification on any of the information stated above, please contact me at 817-276-6552.

Sincerely,

**/RA/**

Docket: 030-34194  
License: 10-25362-01  
Control: 470966

Enclosure: As stated

### Materials License Termination/Retirement Form

LICENSE #: 10-25362-01

DOCKET #:030-341964

LICENSEE: Shaw Environmental & Infrastructure, Inc.

EXPIRATION DATE: March 31, 2014

DATE OF CONTACT: April 12, 2006

ADDRESS: 9201 East Dry Creek Road  
Centennial, CO 80112

CONTACTED BY: Steve Brown  
TITLE: Radiation Safety Officer  
TELEPHONE: 303-793-5233.

LICENSE TERMINATED: June 26, 2006

BASIS FOR TERMINATION: The license was terminated because the licensee moved the location of their office to Centennial, Colorado from Alpharetta, Georgia. Therefore, the jurisdiction was changed from Region I to Region IV. Since the license was only authorized for temporary job sites, there was no decommissioning of facilities in NRC jurisdiction required.
