Magic Valley Regional Medical Center  
ATTN: Robert Wasserstrom, M.D.  
Radiation Safety Officer  
650 Addison Avenue West  
Twin Falls, Idaho 83301

SUBJECT: LICENSE AMENDMENT

Please find enclosed Amendment No. 17 to NRC License No. 11-27082-01, **removing some brachytherapy source model numbers from your license as requested. Our review of your amendment request also included your May 8, 2006 letter requesting the addition of Dr. Dixon to your license for 10CFR35.100 and 35.200 uses. We have not added Dr. Dixon to your license at this time because we need additional training and experience information. NRC Form 313A will need to be completed including Part II, "Preceptor Attestation". When completing the items in Form 313A, you should refer to the training requirements specified in 10 CFR 35.190 and 35.290. The NRC web site also contains information designed to assist with the preparation of Form 313A. To access the medical licensing information on our web site, go to [nrc.gov](http://nrc.gov), select "nuclear materials" and "medical licensee tool kit". Form 313A and instructions can be found at [nrc.gov](http://nrc.gov), "electronic reading room, document collections, NUREGS, and finally publications by NRC staff". Look for NUREG-1556, Vol. 9, Rev. 1. Form 313A will be found in Appendix A and B. When submitting the additional information requested for Dr. Dixon, please refer to Mail Control #470980. Please contact me at 925-673-9646 if you require assistance.**

NRC's Regulatory Issue Summary (RIS) 2005-31, provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/> and the link for frequently asked questions may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. Pursuant to NRC's RIS 2005-31, the enclosed materials license will be made publicly available.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(iv). You should review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or if you have any questions, please contact me at 925-673-9646.

In addition, please note that NRC Form 313 requires the applicant, by signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee

or certifying official rather than a consultant. Since the NRC also accepts a letter requesting amendment of an NRC license, the signatory for such a request should also be the licensee or certifying official rather than a consultant.

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available on the following internet address:  
<http://www.nrc.gov/what-we-do/regulatory/enforcement/enforc-pol.pdf>.

The NRC no longer publishes the NRC Rules and Regulations loose leaf supplements due to budget constraints. However, an electronic version of the NRC's regulations is available on the NRC Web site at [www.nrc.gov](http://www.nrc.gov). To view these regulations, highlight "Electronic Reading Room" and choose "Regulations" on the drop down menu. An electronic version of the NUREG-1556 Series publications is also available on the NRC Web site. To view these guidance documents, highlight "Electronic Reading Room," choose "All Document Types" on the drop down menu. Scroll down to "NUREG-Series Publications" and select "Publications Prepared by the NRC Staff." Then, choose "NUREG-1556" from the table and select the appropriate volume(s) for your license type.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

**\RA\**

James L. Montgomery, Health Physicist  
Nuclear Materials Licensing Branch

Docket: 030-32236  
License: 11-27082-01  
Control: 470980

Enclosures: As stated

**MATERIALS LICENSE**

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee	In accordance with letter dated April 3, 2006
1. Magic Valley Regional Medical Center	3. License number 11-27082-01 is amended in its entirety to read as follows:
2. 650 Addison Avenue West Twin Falls, Idaho 83301	4. Expiration date April 30, 2011
	5. Docket No. 030-32236 Reference No.

- |   |  |  |
|---|--|--|
| 6. Byproduct, source, and/or special nuclear material | 7. Chemical and/or physical form   | 8. Maximum amount that licensee may possess at any one time under this license |
| A. Any byproduct material permitted by 10 CFR 35.100  | A. Any   | A. As needed   |
| B. Any byproduct material permitted by 10 CFR 35.200  | B. Any   | B. As needed   |
| C. Any byproduct material permitted by 10 CFR 35.300  | C. Any   | C. 700 millicuries   |
| D. Any byproduct material permitted by 10 CFR 35.400  | D. Sealed sources (Amersham Model 6700 Series; Best Medical International, Inc., Models 2301 through 2316; Theragenics Corp., or BEBIG Isotopentechnik Model 125.S06; and North American Scientific, Inc., Model MED 3631) | D. 500 millicuries   |

## 9. Authorized use

- A. Any uptake, dilution, and excretion study permitted by 10 CFR 35.100.
- B. Any imaging and localization study permitted by 10 CFR 35.200.
- C. Any use permitted by 10 CFR 35.300.
- D. Any manual brachytherapy use permitted by 10 CFR 35.400.

CONDITIONS

**MATERIALS LICENSE  
SUPPLEMENTARY SHEET**License Number  
11-27082-01Docket or Reference Number  
030-32236

Amendment No. 17

10. Licensed material may be used or stored only at the licensee's facilities located at 650 Addison Avenue West, Twin Falls, Idaho.

11. The Radiation Safety Officer (RSO) for this license is Robert Wasserstrom, M.D.

12. Licensed material is only authorized for use by, or under the supervision of:

A. Individuals permitted to work as an authorized user, and/or authorized medical physicist in accordance with 10 CFR 35.13 and 35.14.

B. The following individuals are authorized users for the material and medical uses indicated:

<u>Authorized Users</u>	<u>Material and Use</u>
Glenn Richard Albertson, M.D.	35.100; 35.200
Terry K. Buccamboso, M.D.	35.100; 35.200
Michael E. Holzer, M.D.	35.100; 35.200
Evan E. Thomas, M.D.	35.100; 35.200
Robert Wasserstrom, M.D.	35.100; 35.200; 35.300
Charles E. Smith, M.D.	35.300; 35.400
Stephen Smith, M.D.	35.300; 35.400

13. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.

14. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."

Amendment No. 17

15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

- A. Application dated November 24, 2000
- B. Letter dated April 16, 2001
- C. Facsimile dated December 4, 2001
- D. Facsimile dated January 24, 2002
- E. Letter dated May 31, 2002
- F. Facsimile dated August 31, 2002
- G. Letter received December 30, 2003
- H. Letter received May 17, 2005
- I. Letter received June 9, 2005
- J. Letter received July 13, 2005
