Attention: Mrs. Orysia Baily

Reference: Revising GDE Nuclear Licence
License No.: 45-31079-01

03032010

Dear Mrs. Orysia:

Geo Design & Engineering, Inc. has acquired two nuclear gauges from Washington Testing & Consulting Services with its License No. 45-25459-01. Washington Testing & Consulting Services is terminating its license to perform soil testing utilizing nuclear gauges. The two nuclear gauges that will be acquired by GDE are:

- CPN Gauge Model MC-1, Serial No. M18058250
- Troxler Gauge Model 3411B, Serial No. 9884

Since GDE current license does not include CPN gauges, please revise our license to include CPN gauges.

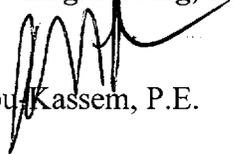

Attached are the last leak tests performed on both gauges on June 14, 2006

Should you have any questions or require additional information, please contact me at your convenience

Sincerely;

Geo Design & Engineering, Inc.

Mohamad Abu-Kassem, P.E.
President

LEAK TEST CERTIFICATE

MD Materials License # MD-13-020-01

This certifies that leak test analysis was conducted on the sample with the following information. The results shown below accurately represent the level of removeable contamination.

Gauge Model MC-1 Portaprobe Gauge S/N **M18058250** **Leak Test Date** 6/14/2006

Source	Reading in microCuries
C-8250	0.0000511
A-8250	0.00000

Note: 0.005 microCuries (185 Bq) or greater is considered a leaking source. The source(s) tested above may remain in use.
