B. Jennifer Davis, Chief
c/o Document Control Desk
U.S. Nuclear Regulatory Commission
Mailstop T-7JO8
Washington, DC 20555-0001

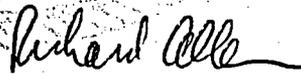

Dear Ms. Davis:

The Illinois Emergency Management Agency has completed its review of the U.S. Nuclear Regulatory Commission Draft Environmental Assessment (EA) for License Renewal of Honeywell's Metropolis Works Facility in Metropolis, Illinois.

The Agency's initial review of the draft EA revealed a need for further information regarding the evaluation of seismic risks to the Honeywell facility. In response to the Agency's information request, your office provided a copy of the Integrated Safety Analysis (ISA) for the Honeywell facility dated October 2005. The Agency has completed its review of this document and has no further questions regarding the EA.

The Agency appreciated the opportunity to review the EA and appreciated your effort in providing the additional documentation. We acknowledge the transmittal of the ISA as "Official Use Only" and will manage the document accordingly.

Sincerely,

Richard Allen, Chief
Bureau of Environmental Safety
