TRAINING: Training for IP 71114.02 was conducted during the last national Emergency Preparedness counterpart meeting.

REMARKS: IMC 0612.04 (Sample Cover Letters) has been revised to add an example of security inspection report cover letter. This addition incorporates new guidance from the Commission on the type and nature of information which can be conveyed to the public in a cover letter associated with security inspections.

IP 71114 (Reactor Safety Emergency Preparedness) has been revised to reflect changes to the procedure attachments, simplify using acronyms, add new references, and add new Attachment 07, "Force-On-Force (FOF) Exercise Evaluation."

IP 71114.01 (Exercise Evaluation) has been revised to better align it with IMC 0612, "Power Reactor Inspection Reports" and IMC 0609, App B, "Emergency Preparedness Significance Determination Process" to meet two commitments. Also, requirements for co-located sites were changed.

IP 71114.02 (Alert and Notification System Testing) has been revised to include evaluation of siren maintenance program in addition to the testing program, clarify what constitutes a significant system change, align the procedure with IMC 0609, App B, "Emergency Preparedness Significance Determination Process," and also, change agency reference from the Federal Emergency Management Agency (FEMA) to the Department of Homeland Security (DHS).
