FOR THE VENTILATED STORAGE CASK (VSC-24) SYSTEM

Dear Mr. Sisley:

I have enclosed revised Amendment No. 6 to the Certificate of Compliance No. 1007. This revision of Amendment No. 6 corrects a typographical error in the Certificate of Compliance enclosed in my June 15, 2006, letter to you. The previous version of this amendment contained an incorrect Amendment Effective Date. The Certificate has been revised with a new Amendment Effective Date of June 5, 2006. This is the actual effective date as noticed in the Federal Register (71 FR 30576) on June 5, 2006.

This certificate constitutes the approval and conditions for use of the Ventilated Storage Cask (VSC-24) System for storage of spent nuclear fuel under the general licensing provision of 10 CFR 72.210. A general license has been granted to all holders of the licenses for nuclear power reactors issued under 10 CFR Part 50.

If you have any questions regarding this certificate, please contact me or Jill Caverly of my staff at (301) 415-8500.

Sincerely,
