101 International Way  
Missoula, Montana 59808

LICENSE TERMINATION

Docket: 030-35693  
License: 25-27698-01  
Control: 470990

**[Termination letter was not sent to the licensee. Amendment No. 02 (termination) was sent in conjunction with NOV letter on June 28, 2006. See ML061790453.]**

## CHECKLIST

### NUREG 1757 - Appendix C: CHECKLIST OF ACTIONS TO BE COMPLETED BY NRC STAFF UPON RECEIPT OF LICENSED FACILITIES NOTIFICATION OF INTENT TO CEASE LICENSED OPERATIONS

**Facility Information:** License No.: 25-27698-01 Docket No.: 030-35693

Facility Name: Envirocon, Inc.  
Address: 101 International Way  
Address: Missoula, Montana 59808

Project Manager: Roberto J. Torres  
Date of Notification: June 2, 2006

License 25-27698-01 was determined to be Group 1

For Groups 1 and 2, the acceptable methods for demonstrating the suitability of the site for unrestricted use is described in Chapters 8 and 9 of NUREG 1757, *Consolidated NMSS Decommissioning Guidance*, Volume 1, "Decommissioning Process for Materials Licensees."

Group 1 Licensees (Refer to Section 8.1 of NUREG 1757)

Question 1:

This licensee possessed and used only sealed sources and their most recent leak tests are current and demonstrate that the sealed sources did not leak while in their possession.

Comments: Only two portable gauges in inventory. Most recent leak test results dated April 5, 2006, and April 6, 2006, for the sealed sources contained in Troxler 3440 (serial no. 31204) and Troxler 3430 (serial no. 32714), respectively, were negative for removable contamination.

Question 2:

This licensee possessed and used relatively short-lived radioactive material (i.e.,  $T_{1/2}$  less than or equal to 120 days) in an unsealed form, the maximum activity authorized under the license has decayed to less than the quantity specified in 10 CFR Part 20, Appendix C, and the licensee's survey performed in accordance with 10 CFR Part 30.36 does not identify any residual levels of radiological contamination greater than decommissioning screening criteria.

Comments: Not applicable.

NOTE: Licensees decommissioning under Group 1 would not be required to develop a DP.

***(If Licensee is designated as Group 1, then you may end the Checklist here!)***  
***(Please Go to the Last Page)***

Group 2 Licensees (Refer to Section 9.1 of NUREG 1757) N/A  
(Enter Y or N)

- \_\_\_\_\_ Licensee demonstrated compliance with 10 CFR Part 20.1402 (Radiological criteria for unrestricted use) using the screening methodology.
- \_\_\_\_\_ Licensee possessed and used only sealed sources and cannot demonstrate current leak tight integrity.
- \_\_\_\_\_ Complete an Environmental Assessment (EA).
- \_\_\_\_\_ Confirmatory survey or side-by-side survey completed. This depends on the licensee's survey and radioactive material use at the facility.
- \_\_\_\_\_ Issue Federal Register Notice to announce FONSI.

Note: Group 2 decommissioning licensees would not be required to develop a DP.

Group 3 Licensees (Refer to Section 10.1 of NUREG 1757) N/A  
(Enter Y or N)

- \_\_\_\_\_ Licensee demonstrated compliance with 10 CFR Part 20.1402 (Radiological criteria for unrestricted use) using the screening methodology.
- \_\_\_\_\_ Licensee possessed and used only sealed sources and cannot demonstrate current leak tight integrity.
- \_\_\_\_\_ Licensee needs an amendment to modify or add procedures to remediate buildings or sites.
- \_\_\_\_\_ Complete an Environmental Assessment (EA).
- \_\_\_\_\_ Confirmatory survey or side-by-side survey completed. This depends on the licensee's survey and radioactive material use at the facility.
- \_\_\_\_\_ Issue letter to the licensee documenting DP review.
- \_\_\_\_\_ Issue Federal Register Notice to announce (1) receipt of the DP and NRC's intended actions and (2) announce FONSI.

Note: Group 3 decommissioning licensees are required to submit a simplified DP.

***(If Licensee is designated as Group 2 or 3, then you may end the Checklist here!)  
(Please Go to the Last Page)***

Group 4 Licensees (Refer to Section 11.1 of NUREG 1757) N/A  
(Enter Y or N)

\_\_\_\_\_ Facilities decommissioned under Group 4 used licensed material in a manner that resulted in its release into the environment, activated adjacent materials, or resulted in persistent contamination of work areas, but did not result in contamination of ground water.

\_\_\_\_\_ These licensees cannot meet, or choose not to use, screening criteria so they must demonstrate that any residual radioactive material remaining at their site is within the levels specified in NRC's criteria for unrestricted use by applying a comprehensive dose analysis.

\_\_\_\_\_ Complete an EA and issue SER to document the DP review.

\_\_\_\_\_ Perform and document confirmatory survey or side-by-side survey completed.

\_\_\_\_\_ Issue Federal Register Notice to announce (1) receipt of the DP and NRC's intended actions and (2) announce FONSI.

Note: DP is required for Group 4.

Group 5 Licensees (Refer to Section 12.1 of NUREG 1757) N/A  
(Enter Yes or No)

\_\_\_\_\_ Facilities that decommission under Group 5 have used licensed material in a manner that resulted in its release into the environment, activated adjacent materials or resulted in persistent contamination of work areas, and resulted in contamination of ground water.

\_\_\_\_\_ Group 5 decommissioning includes licensees that intend to decommission their facilities in accordance with NRC criteria for unrestricted use as described in 10 CFR 20.1402.

Note: DP is required.

***(If Licensee is designated as Group 4 or 5, then you may end the Checklist here!)  
(Please Go to the Last Page)***

Group 6 Licensees (Refer to Section 13.1 of NUREG 1757) N/A  
(Enter Yes or No)

\_\_\_\_\_ Facilities that decommission under Group 6 have used licensed material in a manner that resulted in releases to the environment, activated adjacent materials, or resulted in persistent contamination of work areas or ground water.

\_\_\_\_\_ Group 6 decommissioning includes licensees that intend to decommission its facility in accordance with NRC criteria for restricted use as described in 10 CFR 20.1403.

Note: DP is required.

Group 7 Licensees (Refer to Section 14.1 of NUREG 1757) N/A  
(Enter Yes or No)

\_\_\_\_\_ Facilities that have residual radiological contamination present in building surfaces, soils, and possibly ground water.

\_\_\_\_\_ These licensees intend to decommission their facilities such that residual radioactive material remaining at their site is in excess of the levels specified in NRC's criteria for unrestricted use.

\_\_\_\_\_ The licensees will apply site-specific criteria in a comprehensive dose analysis in accordance with alternate criteria for license termination (10 CFR 20.1404).

\_\_\_\_\_ A site DP that identifies the land use, exposure pathways, institutional controls, and critical group for the dose analysis is required.

Note: These sites require extensive NRC review and are handled on a case-by-case basis with license termination specifically approved by a vote of the NRC Commissioners.

Radioactive Material Disposition

Yes Form 314 or equivalent submitted:

  X   Staff verified disposition of sealed sources or unsealed radioactive material by one of the following:

      X       Letters dated May 5, 2006, and June 2, 2006 from Form 314 Recipient (Nuclear Testing Services, Utah license 1800139)

           Call to Form 314 Recipient

Comments: Negative leak test results

Radioactive Material Records Disposition

Licensee transfer of records discussed in 10 CFR 30.35, 30.36, 30.51; 40.36, 40.42, 40.61; or 70.25, 70.38, 70.51:

           To U.S. NRC

      X       To individual assuming responsibility for the license, with a copy of the cover letter to the U.S. NRC.

Comments: Leak test results provided to Nuclear Testing Services, Utah license 1800139.

Confirmatory or Side-by-Side Survey            N/A

           Termination survey submitted by licensee.

           Termination survey satisfies NRC survey requirements.

           Confirmatory or Side-by-Side survey performed:

Type:  
Date(s):  
Inspector:

           Close-out inspection performed:

Date(s):  
Inspector:
