Summary:	<p>The licensee requested to remove one RSO and add another (Arnold Brenner who is also an AU on the license). I explained to Ms. Diaz pursuant to 35.50, the licensee will need to submit a written attestation statement and a description of training involving regulatory issues, emergency response, and radiation safety. She asked if I would submit it to her in writing.</p> <p>June 27, 2006, 11am . A consulting medical physicist for the licensee called me in regards to the license. He explained that Dr. Brenner had been previously listed on both an NRC license as well as a New Jersey State license as an RSO and if that information would be sufficient in order to add him to this license. I informed him that the information would be sufficient provided that it has been in the last seven years and that he should also send copies of the license.</p>
