Subj: SNM-960 Organization Changes

RE: (1) ~~License SNM-960, Docket 70-754~~
(2) Demonstration for Special Nuclear Material License Renewal for the Vallecitos Nuclear Center (Appendix B Section 2 Organization and Administration)

On January 19th, 2006 I relieved Scott Bump as the Manger, Vallecitos Nuclear Center. Effective that date the General Managers of the General Electric divisions represented at VNC designated me the manager responsible for the nuclear safety, industrial safety and environmental compliance for the entire site.

To support this move, Chuck Bassett temporarily was assigned responsibility for the Regulatory Compliance function. Today, Latonya Martin assumes the responsibilities within the referenced license for Regulatory Compliance & EHS. Until Ms. Martin completes additional training, Mr. Bassett will retain responsibility for the Criticality Safety Function reporting for this function to Ms. Martin.

If you have any questions in the above matters, please contact me at the address above, davidw.turner@ge.com, by phone at 925.862.4344 or Tonya Martin at latonya.martin@ge.com or 925.862.4360.

Sincerely yours,
