RE: (1) ~~License DR-1, Docket 50-70 (GETR)~~
(2) License DR-10, Docket 505-183 (EVESR)
(3) License DPR-1, Docket 50-18 (VBWR)

On January 19th, 2006 I relieved Scott Bump as the Manger, Vallecitos Nuclear Center. To support this move, Chuck Bassett temporarily was assigned responsibility for the Regulatory Compliance function. Today, Latonya Martin assumes the responsibilities within the three referenced licenses for Regulatory Compliance & EHS. These positions are referenced in the technical specifications of the above referenced licenses as follows

License	Manger, Vallecitos Nuclear Center	Regulatory Compliance & EHS
TR-1 (GETR)	Level 1 Organization Head	Radiation Safety
DR-10 (EVESR) & DPR-1 (VBWR)	References to supervision at various levels	References to safety or licensing functions

Ref. 1, requires a report within 30 days per Tech Spec 6.6.2(2) for Level 1 and Level 2 organizational changes, Refs. 2 and 3 do not contain specific requirements of this nature, but are reported here for completeness. This Level 1 report was made by telephone and e-mail on January 23rd, 2006, from David Turner to the NRC.

If you have any questions in the above matters, please contact me at the address above, davidw.turner@ge.com, by phone at 925.862.4344 or Tonya Martin at latonya.martin@ge.com or 925.862.4360.
