Subject: Notification to licensees concerning closure of NRC's fuel facility PI effort

Hi Charlie,

This is a followup to my earlier message. Last Friday, June 16, the Commission disapproved continuation of the NRC staff's efforts to develop facility-specific performance indicators (PIs) for fuel facilities. As such, the NRC staff is closing its efforts in this regard and will not be conducting any more of its requested site/office visits or conference calls concerning facility-specific PIs. The NRC staff sincerely appreciates your cooperation and time and effort in responding to our requests concerning fuel facility PIs.

I will place a copy of this email into ADAMS.

Please call if you have any questions,

Breeda
