Docket No. 52-010

June 23, 2006

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, D.C. 20555-0001

Subject: NRC Safety Evaluation Regarding the Application of General Electric's Licensing Topical Report, "TRACG Application for ESBWR Stability Analysis," NEDE-33083P, Supplement 1 – Identification of Proprietary Information

In response to the referenced letter, GE has reviewed the subject Safety Evaluation and has determined that it contains some information which GE considers proprietary as defined by 10 CFR 2.390. The proprietary information is contained in Enclosure 1 and is identified by means of yellow highlighting within the document. In addition, text shown in "strike out" mode reflects discussions in a conference call held on June 20, 2006. GE customarily maintains this information in confidence and withholds it from public disclosure.

GE has previously identified this information as proprietary in the affidavit originally submitted with the topical report listed in the referenced letter. GE hereby requests that the information of Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

GE appreciates the efforts of the NRC in preparing this Safety Evaluation.

If you have any questions about the information provided here, please let me know.

Sincerely,

Kathy Sedney for

David H. Hinds
Manager, ESBWR
