David L. Wigginton
4119 West Runion Dr.
Glendale, AZ 85308

Dear Mr. Wigginton,

Thank you for writing to recognize Dr. Thomas Murley's work at the Nuclear Regulatory Commission. Dr. Murley, who is now retired from the NRC, contributed significantly to the agency's mission during hurricane Andrew and throughout his career. His achievements were recognized and rewarded several times during his employment with the NRC.

As you correctly pointed out, the devastating effects of Katrina demonstrated to the Nation the vital importance of hurricane preparedness and response. I can assure you that the NRC remains strongly committed to those efforts. We share your concern for the public health and safety, and will remain vigilant during this hurricane season.

Sincerely,

Eric J. Leeds, Director /RA/
Division of Preparedness
and Response
