 Anne/Peter,

Does RIII plan to submit this EDO Daily Note via the process today? The EDO Dailies already were issued last night when this came in.

Beth

I have attached an updated EDO daily wording.....Region III is planning to have an updated PN by 11:00 a.m. EST documenting the updated EDO daily.

As a reference is the overhead view of Braidwood (via fax). The positive sample was [redacted] location...The wells driven by the licensee over the weekend are north of Faltan Pond. The original 33,580 pci/L reading is also marked on the oversight photo. The licensee was taking and analyzing samples at [redacted] location today.....

By 6 PM agree.
