Subject: Re: Fwd: Draft Braidwood PN update

FYI - Pete, I walked around the additional info. Wed a.m. I didn't hand them anything, as recommended by Marty, but gave them the 1,100 picoCurie/L number.

One question from GBJ's office...why is this becoming an issue now when the releases were in 1998 and 2000? ie. What initiated this recent information gathering? I wasn't sure of the answer and told Terry you'd be back tomorrow.

Draft PN by Region III (still not through the review cycle)

Commissioner McGaffigan's TA (J. Beall) wanted to be briefed if we find anything above background in a residential well. Since this new information exists...We can walkaround would be a suggestion...Let me know I will be back in the office around 4:00 p.m. today..
