Subject: Tritium Information

Eliot,

Luis said to send you the information we collected on tritium leaks. (See attached). This was collected from NRR, the Regions and NMSS in December. When used it should come with lots of caveats because the collection was just corporate knowledge, not a comprehensive search of documents and databases.

I think there is additional information on tritium leaks in the 2.206 petition that just came in too.

If you have any questions or need additional information, please don't hesitate to call (X1784).

Beth
