release

Beth,
Marty wanted me to mark an update....I believe that the Region is planning on providing an updated PN, however I can talk to Anne this morning.....

Anne/Peter,
Does RIII plan to submit this EDO Daily Note via the process today? The EDO Dailies already were issued last night when this came in.

I have attached an updated EDO daily wording.....Region III is planning to have an updated PN by 11:00 a.m. EST documenting the updated EDO daily.

As a reference is the overhead view of Braidwood (via fax). The positive sample was a *(redacted)* location...The wells driven by the licensee over the weekend are north of Faltar Pond. The original 33,580 pci/l reading is also marked on the oversight photo. The licensee was taking and analyzing samples at *(redacted)* location today.....
