Subject: AP1000 COL Technical Report Submittal

In support of Combined License application pre-application activities, Westinghouse is submitting AP1000 Standard Combined License Technical Report Number 45. This report completes and documents, on a generic basis, the activities required for COL Information Items 9.5-5 in the AP1000 Design Control Document. This report is submitted as part of the NuStart Bellefonte COL Project (NRC Project Number 740). The information included in this report is generic and is expected to apply to all COL applications that reference the AP1000 Design Certification.

The purpose for the submittal of this report was explained in a March 8, 2006 letter from NuStart to the NRC.

Pursuant to 10 CFR 50.30(b), APP-GW-GLR-027, Rev. 1, "Operator Actions Minimizing Spurious ADS Actuations," Technical Report Number 45, is submitted as Enclosure 1 under the attached Oath of Affirmation.

Procedures used in the evaluation that is documented in this report are available for NRC review at the Westinghouse offices. It is expected that when the NRC review of Technical Report Number 45 reports is complete, COL Information Item 9.5-5 will be considered complete for COL applicants referencing the AP1000 Design Certification.

Questions or requests for additional information related to the content and preparation of these reports should be directed to Westinghouse. Please send copies of such questions or requests to the prospective applicants for combined licenses referencing the AP1000 Design Certification. A representative for each applicant is included on the cc: list of this letter.

Very truly yours,
