Subject: SAMPLE TAKEN IN UNIT 2 MAN HOLE # 5 CURTAIN DRAIN OUTLET PIPE

We took a 3 way split water sample with the NRC this afternoon (4/17/06) on Man Hole # 5 Curtain Drain outlet water pipe. This sample is called the Prior to Outage sample. This sample will be counted for Tritium, Strontium, Gamma, and Boron.

This is the first of three phased samples on the Curtain Drain water. The sample phases are:

Sample 1:	Prior to Outage	(4/17/06)
Sample 2:	During the Outage	
Sample 3:	After the Outage
